

Reclaim a Generation

It's time to reclaim a generation!

Our young people are in distress! Schools and universities often feel like battlegrounds for the hearts and souls of kids. Many are concerned—especially parents and grandparents—for the future of the next generation.

What can you do? Pray!

Reclaim a Generation is a nation-wide 21-day prayer initiative and prayer guide, that individuals and churches are participating in during August and early September each year (right when kids are going back to school following summer break). Since schools start at different times in different states, the initiative does not use specific dates, but allows the user to pray when kids are going back to school in their area.

The *Reclaim a Generation Volume 2* (for the 2023-2024 school year) guide is loaded with relevant information about the issues schools and kids face today. It includes targeted prayer points and Scriptures to pray through each day. It will be available for pre-order in mid-April and copies will ship starting in late May.

Pray for a school that's on your heart—maybe the school you attended, your child's or grandchild's school, or one in your neighborhood. Better yet . . . get your entire church or prayer group to pray through this guide with you!

Reclaim a Generation also includes tips for churches on how to bless schools and kids with prayer in unique ways while they are praying through this guide as a congregation.

For Information or to Order

The *Reclaim a Generation* prayer guide will be available for pre-ordering in mid-April and copies will ship out starting in late May. We encourage you to order early as we anticipate a significant response and we may run out of guides. *Reclaim a Generation* will be available in both print and e-book formats.
